

What is that smell?

Use this Wastewater Odor Wheel to help accurately describe what you are smelling when you call Dublin San Ramon Services District's **Odor Control Hotline at (925) 519-0557**. By being specific, you can help us identify the cause or source of the odor.

Does it smell like soap? Sulfur? Skunk? How does it feel on your nose? Sharp or pungent? Metallic or irritating? Each type of odor has a different cause. The more information you can give us, the easier it will be for our wastewater treatment plant operators to track down the source.
