TITLE: Approve Amendment No. 12 to Agreement of February 8, 2002 with Bold, Polisner, Maddow, Nelson & Judson for District General Counsel Services

RECOMMENDATION:

Staff recommends the Board of Directors approve, by Resolution, Amendment No. 12 to the Agreement with Bold, Polisner, Maddow, Nelson & Judson (BPMNJ) for services of District General Counsel.

SUMMARY:

The District retained BPMNJ to act as General Counsel for the District on February 8, 2002. Since then, DSRSD has annually, or biannually, evaluated the performance of BPMNJ, most recently in June 2020. The District remains very satisfied with the services of BPMNJ. In recognition of the good service provided by BPMNJ and the increased cost of doing business since the last amendment was executed, this Amendment No. 12 provides for an adjustment to the current hourly rates effective on July 1, 2020 and in effect until June 30, 2022, as follows:

- \$15 increase for the General Counsel, from \$270 to \$285 per hour
- \$15 increase for attorneys, from \$260 to \$275 per hour
- \$10 increase for paralegals, from \$140 to \$150 per hour
- \$10 decrease for law students and interns, from \$135 to \$125 per hour

This adjustment to current hourly rate is budgeted for in the Operating Budget for fiscal year ending 2021.

TWELFTH AMENDMENT TO AGREEMENT
FOR GENERAL COUNSEL SERVICES WITH
BOLD, POLISNER, MADDOW, NELSON & JUDSON

THIS TWELFTH AMENDMENT to the Agreement for General Counsel Services is made and entered into as of the 1st day of July, 2020, by and between Dublin San Ramon Services District, a public agency in the Counties of Alameda and Contra Costa, California, (“District”) and Bold, Polisner, Maddow, Nelson & Judson, a professional corporation (“General Counsel”).

WITNESSETH:

WHEREAS, on February 8, 2002 the District retained the services of Bold, Polisner, Maddow, Nelson & Judson as General Counsel for the District; and

WHEREAS, on November 13, 2003 the District and BPMNJ entered into the first amendment to the agreement, on April 25, 2005 entered into the second amendment to the agreement; on September 15, 2006 entered into the third amendment to the agreement; on September 12, 2008 entered into the fourth amendment to the agreement; on July 1, 2011 entered into the fifth amendment to the agreement; on July 1, 2012 entered into the sixth amendment to the agreement; on July 1, 2013 entered into the seventh amendment to the agreement; on July 1, 2014 entered into the eighth amendment to the agreement; on October 1, 2016 entered into the ninth amendment to the agreement; on July 1, 2018 entered into the tenth amendment to the agreement; and on January 1, 2020 entered into the eleventh amendment to the agreement; and

WHEREAS, the District annually, or biannually at its discretion, evaluates the services of General Counsel, and most recently did so in June 2020; and

WHEREAS, the District remains very satisfied with the performance of General Counsel; and

WHEREAS, the District finds that the hourly rates herein are cost-effective and comparable to the cost of legal services provided by other local agencies.

NOW, THEREFORE, the parties hereto agree as follows:

[continued next page]

1. Article 1: Exhibit “B” to the February 8, 2002 Agreement between the District and General Counsel, as previously revised by Amendments Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, and 11, is hereby replaced in its entirety to read as follows:

“Exhibit B COMPENSATION SCHEDULE

These rates are all-inclusive, except as noted. These rates shall be effective on July 1, 2020 and shall remain effective until June 30, 2022.

Contract Counsel (varies ¹)	As Agreed

General Counsel may add a \$25.00 per hour litigation surcharge on a case-by-case basis to work done for actual litigation activities from initial pleadings through final disposition of each case. For the purpose of billing, this shall mean those services provided in the defense or prosecution of actual filed legal proceedings.

(¹ General Counsel shall not assign work on any District matter to any attorney not listed above or consented to in accordance with Section 1 of this Agreement.)

General Counsel may add an administrative cost of up to 5.0% on the total amount of each invoice received from subcontractors hired by DSRSD through General Counsel. This amount represents full compensation to General Counsel for the detailed handling of agreements, the management of accounts receivable and payable, and the maintenance of special files and ledger sheets related to such payments.

District will reimburse General Counsel or Assistant General Counsel for one attorney’s registration for CASA Attorneys Committee meetings (currently \$200 per meeting), and for actual travel expenses to and from the meetings. General Counsel shall exercise discretion over which Counsel will attend the meeting. District will compensate either the General Counsel or the Assistant General Counsel at the normal hourly rate for up to two

(2) hours of time spent preparing for each meeting of the CASA Attorneys Committee. District will compensate General Counsel or Assistant General Counsel at the normal hourly rate for up to two (2) hours of time spent preparing for each meeting of the CASA State Legislative Committee that the District requests General Counsel to attend. The District will compensate General Counsel or Assistant General Counsel at the normal hourly rate for time spent in attendance of the meetings of each of these two (2) committees.”

2. Article 2: All of the provisions of the contract remain in full force and effect.

IN WITNESS WHEREOF the parties hereto have executed this Twelfth Amendment to Agreement the day and year first hereinabove written.

TITLE: Approve a Side Letter of Agreement with the Mid-Management Employees' Bargaining Unit and Dublin San Ramon Services District

RECOMMENDATION:

The General Manager recommends the Board of Directors approve, by Resolution, a Side Letter of Agreement with the Mid-Management Employees' Bargaining Unit (MEBU).

SUMMARY:

The District has experienced a long-term vacancy for the supervisor in the Operations Support Services Division that in part supervises the safety functions. Additionally, the Safety Technician position became vacant in December. Some of the safety functions have been covered by various staff through acting roles, and the COVID-19 crisis has exacerbated the pressure on the safety program. To assist the effort of appropriately addressing current safety needs during the COVID-19 crisis, the District has relied heavily on the guidance and coaching of Human Resources and Risk Supervisor Michelle Gallardo, former supervisor over the former Safety Division between 2010 and 2015. Ms. Gallardo has also been assigned to write the District's Pandemic Action Plan and Employee Code of Conduct in regards to COVID-19.

Given the extended period of time for which Ms. Gallardo has served the District by performing these extra duties over and above her current position requirements, the General Manager has proposed a stipend to Ms. Gallardo in the amount of a 2.5% differential based on her respective position's base rate of pay for the time she has served, and continues to serve, in this special assignment. This special assignment and the additional compensation shall be effective as of March 4, 2020, when the governor declared the COVID-19 emergency, and will cease approximately two weeks after the District successfully hires an Operations Compliance Supervisor, which is anticipated the week of June 15.

The current MEBU Memoranda of Understanding (MOU) provides for temporary upgrade pay for short-term out-of-class assignments (called "Out-of-Class Pay"); however, this special pay category only applies when an employee is assigned to perform the full range of duties of a higher-level classification. In this unique circumstance, Ms. Gallardo is only performing specific business-critical duties of a higher-level position, which does not meet the requirements for Out-of-Class Pay.

The District has completed its obligations under the Meyers-Milias-Brown Act (MMBA) to meet and confer with MEBU on this proposed Side Letter of Agreement.

RESOLUTION NO. _____

RESOLUTION OF THE BOARD OF DIRECTORS OF DUBLIN SAN RAMON SERVICES DISTRICT APPROVING SIDE LETTER OF AGREEMENT WITH MID-MANAGEMENT EMPLOYEES' BARGAINING UNIT FOR SPECIAL COMPENSATION FOR HUMAN RESOURCES AND RISK SUPERVISOR, MICHELLE GALLARDO

WHEREAS, the District has a need to complete several critical assignments related to safety operations as a result of the COVID-19 crisis; and

WHEREAS, Michelle Gallardo supervised the safety program from 2010 to 2015 while serving in her role of Human Resources and Risk Supervisor and is qualified to perform these assignments; and

WHEREAS, Ms. Gallardo has performed and continues to perform critical special assignments related to the COVID-19 crisis, while meeting the full range of duties as Human Resources and Risk Supervisor; and

WHEREAS, District representatives and Mid-Management Employees' Bargaining Unit (MEBU) have met on all labor obligations, and by side letter agreement, have agreed upon payment of a special compensation stipend for this extra duty.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF DUBLIN SAN RAMON SERVICES DISTRICT, a public agency in the Counties of Alameda and Contra Costa, California, that the Side Letter of Agreement to the Memorandum of Understanding with Mid-Management Employees' Bargaining Unit, attached as Exhibit "A," is hereby approved for a special compensation stipend for Human Resources and Risk Supervisor, Michelle Gallardo.

ADOPTED by the Board of Directors of Dublin San Ramon Services District, a public agency in the State of California, Counties of Alameda and Contra Costa, at its regular meeting held on the 16th day of June, 2020, and passed by the following vote:

**SIDE LETTER OF AGREEMENT
BETWEEN
DUBLIN SAN RAMON SERVICES DISTRICT
AND
MID-MANAGEMENT EMPLOYEES' BARGAINING UNIT**

The Dublin San Ramon Services District ("District") and the Mid-Management Employees' Bargaining Unit ("MEBU") agree to the following:

1. As the District continues to deal with the COVID-19 crisis, while recruiting for the Operations Compliance Supervisor, the Facilities and Safety Technician, and the Environmental Health and Safety Program Administrator, the District has the need for special assistance in the safety area. The District has designated Human Resources and Risk Supervisor, Michelle Gallardo, to serve in this temporary assignment, which will be deemed effective retroactive to March 4, 2020 (California state of emergency for COVID-19). Ms. Gallardo will perform special assignments in the areas of safety, including but not limited to drafting a Pandemic Action Plan, drafting a Code of Conduct for Pandemic Events, and advising the acting Operations Compliance Supervisor and acting Safety Technician. Her past experience with the District's safety division from 2010 – 2015 provides her the institutional knowledge and skill set to perform this special assignment. During this time, Ms. Gallardo will continue to perform her normal duties associated with the Human Resources and Risk Supervisor position.
2. For this temporary, Special Assignment only, the District shall pay Michelle Gallardo a Special Assignment pay in the amount of 2.5% of her regular rate of base pay per work week while serving in this capacity and performing her own job duties. Such payment will be made retroactive to the effective date of the temporary assignment and is anticipated to end approximately two weeks after the hire date of the Operations Compliance Supervisor to permit ample time for on-boarding of these safety functions. Such Special Assignment stipend will be administered in accordance with all applicable state and federal wage and hour laws.
3. This one-time Special Assignment stipend shall be non-precedent setting.
4. This Special Assignment is intended to be temporary in nature and the General Manager may terminate the Special Assignment at any time and for any reason.
5. The granting and/or discontinuance of this Special Assignment and the determination of the amount or type of Special Assignment stipend shall not be subject to the grievance procedure.
6. This Special Assignment 2.5% stipend may not be considered as "pensionable compensation" for the purposes of CalPERS Retirement benefits.

Except as specifically provided in this Side Letter, all other terms and conditions of employment as set forth in the MOU between the District and MEBU will apply.

TITLE: Approve Continuation of District's State of Emergency in Response to COVID-19 Pandemic by General Manager and Find that the Need for the District's State of Emergency Still Exists

RECOMMENDATION:

Staff recommends the Board of Directors receive a verbal update on the COVID-19 emergency and approve, by Motion, a continuation of the State of Emergency response to the COVID-19 pandemic, as declared by the General Manager and confirmed and ratified by Resolution No. 26-20, and find that there exists a need for continuing the District's COVID-19 emergency which the Board last confirmed on June 2, 2020.

SUMMARY:

On March 4, 2020, Governor Gavin Newsom of California proclaimed a State of Emergency to exist in California as a result of the threat of COVID-19, a coronavirus. On March 13, 2020, President Donald Trump declared a National Emergency as a result of the threat of COVID-19.

On March 16, 2020, the public health officers of Alameda and Contra Costa Counties issued a legal order directing their respective residents to shelter in place (SIP) and limiting activity, travel, and business functions to the most essential needs. The SIP order provided an exception for the operations and maintenance of "Essential Infrastructure," which includes, but is not limited to, water, wastewater, and recycled water service. Since the first SIP order was issued, public health officers have issued updated SIP orders on March 31, April 29, and May 18, which modified restrictions in response to changing conditions. While the latest Contra Costa County and Alameda County SIP orders, issued on June 5, differ from each other, both recognize the continuing threat of COVID-19 and need to limit the spread of the virus. The current SIP orders have no specified termination date and will continue to be updated periodically.

On March 16, 2020, the General Manager, as the District's Emergency Manager per the Emergency Response Plan policy (P300-16-2), declared a District State of Emergency to allow for essential operations to continue, and to ensure operational flexibility in meeting the challenges of COVID-19 to the vital water and sewer services that are needed to protect public health and the environment.

On March 19, 2020, Governor Newsom issued Executive Order N-33-20 ordering all individuals living in California to stay home at their place of residence, with certain exceptions for critical services and other qualifying exceptions. On April 29, Governor Newsom issued a four-stage roadmap for gradually relaxing the stay-at-home order, provided that counties meet certain indicators and implement actions to control the threat of COVID-19. Contra Costa County and Alameda County have entered Stage 2, which allows for the gradual opening of some lower risk workplaces with adaptations.

On March 25, 2020, the Board of Directors approved Resolution No. 26-20, which confirmed the continuation of the District State of Emergency, and directed the General Manager to report on progress at least at every regularly scheduled meeting until the State of Emergency is terminated.

District emergency planning has been aggressively implemented. In compliance with the SIP orders, half of the District's staff are working a vast majority of their time from home, but all critical operations needed to protect public health and the environment continue. A number of major projects and activities have been delayed as a result of the County SIP orders and Statewide stay at home order.

The COVID-19 emergency continues in our service area. To assure proper staffing and support of critical operational functions, staff is requesting the Board find that there still exists a need to continue the State of Emergency reflected by Resolution No. 26-20.

TITLE: Hold Public Hearing: Approve Annual Wastewater Service Charges Report and Direct Levy and Collection of Wastewater Service Charges on the Alameda County and Contra Costa County Property Tax Rolls for Fiscal Year 2020–2021

RECOMMENDATION:

Staff recommends the Board of Directors hold a Public Hearing and approve, by Resolution, the Annual Wastewater Service Charges Report and direct the levy and collection of wastewater service charges on the Alameda County and Contra Costa County Property Tax Rolls for fiscal year 2020–2021.

SUMMARY:

On June 20, 2017, DSRSD Board of Directors adopted Resolution No. 33-17, establishing Local and Regional Wastewater Rates under Section 5.30.020 of the District Code of Regulations. The resolution adopted a five-year schedule of increases for wastewater rates for the period of July 1, 2018 – June 30, 2022.

Under the provisions of Section 5.30.120 (*Methods of billing wastewater charges*), of the District Code of Regulations, the District is authorized by the Board to use a variety of methods to collect wastewater charges, whether delinquent or not, including use of the property tax roll, internal billing system, third-party billing system, or any other reasonable method. If the District elects to have its wastewater charges collected on the tax roll in the same manner as property taxes, the proceedings shall be those set forth in Health and Safety Code Section 5473.1 and California Government Code Section 61115(b).

Each year since 2017, the rates have been adjusted as set forth under the provision of Resolution No. 33-17, which calls for an automatic adjustment of the rates using the adopted schedule of increases. Wastewater customers were notified of the adjustment with a written message on the customer’s water bill and by publishing the adjusted rates on the District website. In addition, on April 17, 2020, a written notice of wastewater rate adjustments for fiscal year 2021 was mailed to parcel owners.

The District was recently informed that placing wastewater charges on the tax roll requires the filing of an annual report to the Board. Therefore, staff has prepared the annual report for adoption to comply with Health and Safety Code Section 5473.1 and California Government Code Section 61115(b). The annual report (Exhibit A to the Resolution) describes each affected parcel of real property and the applicable charges and delinquencies for the forthcoming fiscal year to be collected on the tax roll.

RESOLUTION NO. _____

RESOLUTION OF THE BOARD OF DIRECTORS OF DUBLIN SAN RAMON SERVICES DISTRICT APPROVING THE ANNUAL WASTEWATER SERVICE CHARGES REPORT AND DIRECTING THE LEVY AND COLLECTION OF WASTEWATER SERVICE CHARGES ON THE ALAMEDA COUNTY AND CONTRA COSTA COUNTY PROPERTY TAX ROLLS FOR FISCAL YEAR 2020–2021

WHEREAS, Section 5.30.020 of the District Code of Regulations allows the Board of Directors to establish user charges by resolution; and

WHEREAS, on June 20, 2017, a public hearing was held, and the Board adopted Resolution No. 33-17, establishing the Local and Regional Wastewater Rates and adopted a five-year schedule of increases for Local and Regional Wastewater Rates. Those rate adjustments were for the period of July 1, 2018 – June 30, 2022; and

WHEREAS, on April 18, 2017, the District mailed out notices of proposed rate increases under the provisions of Article XIII(D), Section 6 of the California State Constitution, known as Proposition 218; and

WHEREAS, under Section 5473.1 of the Health and Safety Code and Section 61115(b) of the California Government Code, the Board of Directors may provide that any charges and penalties may be collected on the tax roll in the same manner as property taxes; and

WHEREAS, Section 5.30.120 “Methods of billing wastewater charges,” of the District Code of Regulations allows the District to use a variety of methods to collect wastewater charges as authorized by the Board, whether delinquent or not, including use of property tax roll, use of internal billing system, third-party billing system, or any other reasonable method; and

WHEREAS, written notice of wastewater rate adjustments for fiscal year ending 2021 have been mailed to parcel owners for all affected parcels on April 17, 2020.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF DUBLIN SAN RAMON SERVICES DISTRICT, a public agency located in the Counties of Alameda and Contra Costa, California, as follows:

1. Objections and Protests. One objection or protest against the placement of levy of service charges for the affected parcels on the property tax rolls for Alameda County and Contra Costa County, as a whole or as to any part thereof, was received prior to or at the Public Hearing.

2. Collection of Wastewater Service Charges. The Board hereby elects to have those certain wastewater charges established by the District for wastewater services collected on the tax roll of the Counties of Alameda and Contra Costa, and in the manner provided pursuant to Section 5473.1 of the Health

ANNUAL
WASTEWATER SERVICE CHARGES
REPORT**

Introduction

Under the provisions of the Board's Rate Policies and Guidelines, a rate study is to be completed in accordance with a number of industry-wide best management practices. In 2017, the District commissioned a study by HDR Engineering, Inc. (HDR), a well-qualified firm that has completed rate studies for the District previously. The 2017 Rate Study examined the effects of growth, future expenditures, general inflation, and planned capital replacement funding, and developed a model to forecast the Regional Wastewater revenues necessary to meet District obligations over the next five years. District staff concurrently prepared an internal study on the Local Wastewater Rates in conjunction with the Regional Wastewater Rate Study performed by HDR. The Internal study conducted a comprehensive review of, and developed a model to forecast, the revenue requirement for the local system while providing equitable and cost-based rates to the local wastewater customers. These models look ahead over the subsequent five years to anticipate future trends. The Board received a report on the results of these rate studies at its meeting of April 18, 2017.

On June 20, 2017, DSRSD Board of Directors adopted Resolution No. 33-17, a Resolution establishing the Local and Regional Wastewater Rates under Section 5.30.020 of the District Code of Regulations that allows Board of Directors to establish user charges by resolution. The Board of Directors held a public hearing and by resolution adopted a five-year schedule of increases for Local and Regional Wastewater Rates. Those rate adjustments were for the period of July 1, 2018 to June 30, 2022.

Increases in charges for "property related fees and charges" are subject to the "majority protest" provisions of Article XIII(D), Section 6 of the California State Constitution. This provision of the State Constitution was added by the voters through an initiative process in 1996, known as Proposition 218. Public involvement in the rate setting process is mandated by Proposition 218. The District mailed out notices of the proposed rate increases on April 18, 2017, and there was no majority protest.

Section 5.30.120 "Methods of billing wastewater charges," of the District Code of Regulations allows the District to use a variety of methods to collect wastewater charges, including wastewater service charges, as authorized by the Board, whether delinquent or not, including use of the property tax roll. It goes on to provide that when the District elects to have its wastewater charges collected on the tax roll in the same manner as property taxes. The proceedings shall be those set forth in Section 5473 of the Health and Safety Code and Section 61115(b) of the California Government Code.

Summary of Charges

DSRSD treats wastewater at the Regional Wastewater Treatment Plant for the District’s customers in Dublin and southern San Ramon, as well as by contract for the City of Pleasanton. The District’s current Local Wastewater Rate pays for the cleaning, operation, and rehabilitation of the wastewater collection system in Dublin and southern San Ramon.

Below is a summary of the annual wastewater service charges for various residential unit types for FY2021, as adjusted pursuant to Resolution No. 33-17.

TITLE: Approve Mid-Cycle Budget Adjustments for Fiscal Years Ending 2020 and 2021

RECOMMENDATION:

Staff recommends the Board of Directors approve, by Resolution, the mid-cycle budget adjustments for fiscal years ending (FYE) 2020 and 2021.

SUMMARY:

The District will be entering the second year of its two-year budget cycle in July. At the end of the first year, staff reviews the District’s financial health to determine whether amendments to the adopted operating budget are needed. Staff has completed this evaluation and is proposing several budget adjustments. Proposed budget adjustments are categorized below and detailed in Exhibit A to the resolution for Board consideration.

New budget adjustments: Staff is recommending new budget adjustments of \$220,000 in FYE 2020 and \$534,600 in FYE 2021. The proposed budget adjustments are to primarily fund contractual (Pleasanton 5th supplemental agreement) and regulatory (AWIA-compliant Risk & Resilience Assessment and Emergency Response Plan) requirements, address impacts of the COVID-19 pandemic (delayed biosolids harvesting and increased janitorial services), and account for higher chemical costs (sodium hypochlorite). In addition, there is a one-time unanticipated expense related to the conversion of recycled water services that are non-compliant with state cross-connection control requirements to potable water. The unanticipated expense does not affect the water operating budget as there will be an offsetting reduction in the replacement allocation to Fund 610.

FYE 2020 Carry-forward Budget Adjustments: Due to the pandemic, certain budgeted services and approved capital outlay will not be procured before fiscal year end because of ongoing staffing issues and emergencies. Staff recommends carrying forward \$859,839 from FYE 2020 to FYE 2021. The two largest capital outlays are a D7 Tractor for biosolids harvesting (\$250,000) and a leak repair vehicle (\$150,000). Other operating expenses proposed for carrying forward include updating the District’s Urban Water Management Plan and OnBase support consultant for records management.

Interfund Budget Adjustments: Each of the District’s three enterprises (Local Wastewater Collection, Regional Wastewater Treatment, and Water) are comprised of four funds: two operating (Operations/Rate Stabilization) and two capital (Replacement and Expansion). Currently, the District’s capital funds are comprised of both operating expenses and capital expenditures. In addition, various miscellaneous fees such as plan check and inspection fees associated with new development were budgeted in expansion capital funds to fund their respective operating expenses. For greater transparency, staff recommends the consolidation of operating revenues/expenses associated with plan checking and inspection into operation funds. For FYE 2020, approximately \$2.0M in operating revenues and \$2.7M in operating expenses are proposed to be consolidated from capital funds to operation funds. For FYE 2021, approximately \$2.1M in operating revenues and \$2.8M in operating expenses are proposed to be consolidated.

The two-year impact across all fund balances is a decrease of \$639,839 in FYE 2020, and an increase of \$1,394,439 in FYE 2021.

TITLE: Receive Update on Primary Sedimentation and Improvements Project (CIP 17-P004)

RECOMMENDATION:

Staff recommends the Board of Directors receive an update on the Primary Sedimentation and Improvements Project (CIP 17-P004).

SUMMARY:

A summary of the Primary Sedimentation and Improvements Project status is provided in the attached staff report. Staff will also provide an update at the June 16, 2020 Board meeting.

STAFF REPORT

District Board of Directors
June 16, 2020

Receive Update on Primary Sedimentation and Improvements Project (CIP 17-P004)

On March 5, 2019, the Board awarded the Primary Sedimentation Expansion and Improvements Project (CIP 17-P004) (Project) to Anderson Pacific Engineering Construction, Inc. (Contractor) in the amount of \$12,997,750 and authorized a construction change order contingency of \$975,000, approximately 7.5% of the bid amount.

The Project entails constructing one new primary sedimentation tank (Tank 5), partially demolishing and replacing one of the existing tanks (Tank 4), adding an additional grit tank (Tank 4), coating the influent channel, replacing the internal mechanisms in the three remaining primary sedimentation tanks, and replacing the motor control center for the equipment. The primary treatment capacity is undersized for the facility's current average dry weather flow. Insufficient primary treatment capacity overburdens the aeration basins and secondary clarifiers leading to higher energy costs and more difficulties in controlling the secondary effluent water quality. The additional primary sedimentation tank will provide the treatment capacity needed for current and buildout flows.

DISCUSSION

Status of Construction Progress

The new Primary Sedimentation Tanks 4 and 5 and new Grit Tank 4 are near completion. Water testing of the new structures was completed mid-May of this year. The installation of new mechanical equipment for Primary Tanks 4 and 5 and Grit Tank 4 is in progress. Most long lead time mechanical equipment like pumps and sludge collectors, have already arrived on site.

Completion of the new sedimentation and grit tanks is currently behind schedule by approximately three months due to extensive repairs that were needed to the existing under slab drain system which delayed pouring the bottom slabs for the new tanks and gallery. Despite the delay, it is anticipated the new tanks will be in service prior to the next wet weather season. Once the new tanks are in service, the existing tanks can be taken out of service and their internal mechanisms, including baffles and troughs which direct and convey the flow, can be replaced. The original substantial completion date was September 30, 2021, the anticipated substantial completion date is now December 6, 2021.

The Contractor currently does not expect any additional delays due to COVID-19.

Construction Change Order Contingency Use

To date, there have been six approved change orders totaling \$218,711, approximately 1.7% of the bid amount and 23% of the approved contingency. However, staff is currently negotiating two large change orders that could exceed the project contingency. One change order is related to electrical conduits between the electrical room and primary gallery that service the primary sedimentation tank

equipment and instrumentation. The design anticipated using the existing original conduits as the outside of the conduit appeared to be in good and usable condition. However, the interior of the conduits was found to be extremely corroded due to exposure to moisture over time. The Contractor expressed concern that the existing conduits pose liability issues, as well as a health and safety concerns. Replacing the conduits will be completed on a time and materials basis and is estimated to cost approximately \$250,000.

The second change order is related to the new baffles for the primary tanks. The specifications required the contractor to provide the baffles as well as a hydraulic analysis to warrant the baffle performance. The specifications listed three baffle suppliers that were familiar with the requirements but allowed the contractor to use an "equal" supplier. Only after providing the baffle submittals did the Contractor learn that their "equal" supplier was not aware of the hydraulic analysis requirements. The work is moving forward while staff is negotiating a solution with the contractor.

In addition to these two large change orders, there is potential for another change order associated with the influent channel to the primaries. As with any rehabilitation project, it is difficult to ascertain the condition of the infrastructure until construction is underway. This is especially true with the influent channel. All the plant influent is pumped into this channel which directs the flows to the grit tanks and primaries. The influent channel is rarely taken out of service due to its critical function. Staff is aware that the concrete in the influent channel has been eroded over time; however, the extent of erosion is unknown. To account for this unknown, the construction contract includes a blanket allowance of \$500,000 for epoxy lining of the channel. The extent of the necessary repairs will be determined when the channel is taken out of service in a few months.

Staff anticipates requesting an increase in the change order contingency in a few months after negotiating the pending change orders and ascertaining the condition of the influent channel. There is currently enough funding available in the capital improvement project to continue the work and cover the estimated change orders. Staff does not anticipate any increase in the project appropriation.

TITLE: Adopt Revised Water Recycling Policy and Rescind Resolution No. 37-10

RECOMMENDATION:

Staff recommends the Board of Directors adopt, by Resolution, the revised Water Recycling policy and rescind Resolution No. 37-10.

SUMMARY:

The Water Recycling policy was initially adopted in 1992 and was last reviewed in 2010. The current policy supports the use of recycled water, outlines the priority of service to various categories of recycled water customers, and allows for the use of back-up potable water supplies when recycled water deliveries are halted. Staff has reviewed the policy and recommends the Board adopt a revised policy that continues to support the use of recycled water, but addresses the limitations of the recycled water supply and reflects the emerging importance of potable reuse in meeting the District's Water Supply, Storage, Conveyance, Quality and Conservation policy.

Staff has drafted a revised policy for the Board's consideration. The revised policy will provide guidance over the next few years as the District amends the DERWA (Dublin San Ramon Services District – East Bay Municipal Utility District Recycled Water Authority) water supply and operations agreements and renegotiates its water supply contract with Zone 7 Water Agency which expires in 2024. The staff report provides the history of recycled water at the District and a summary of current issues, and highlights the recommended policy revisions. For convenience of the Board, a marked-up copy of the current policy is attached.

Adopt Revised Water Recycling Policy and Rescind Resolution No. 37-10

BACKGROUND

The Water Recycling Policy was initially adopted in 1992 and was last reviewed in 2010. The current policy supports the use of recycled water, outlines the priority of service to various categories of recycled water customers, and allows for the use of back-up potable water supplies when recycled water deliveries are halted. Staff has reviewed the policy and recommends the Board adopt a revised policy that continues to support the use of recycled water, but addresses the limitations of the recycled water supply and reflects the emerging importance of potable reuse in meeting the District’s Water Supply, Storage, Conveyance, Quality and Conservation policy.

A Brief History of Recycled Water at DSRSD

The District has a long recycled water history. In the early 1990’s there was a rapid increase in development in the Tri-Valley. The District, along with the City of Livermore and Zone 7 Water Agency (Zone 7) evaluated water recycling to supplement water supply and provide for wastewater disposal capacity. The agencies applied for a master recycling permit from the San Francisco Bay Area Regional Water Quality Control Board to allow Livermore and the District to construct recycling facilities and inject purified water into the valley’s groundwater basin. The District completed an Environmental Impact Report for the Clean Water Revival (CWR) project in 1997 and completed treatment and pipeline facilities in late 1998. However, the Cities of Pleasanton and Livermore and Zone 7 withdrew their support for the project during construction. In 2000, Pleasanton and Zone 7 in response to public concerns, filed lawsuits to oppose groundwater replenishment. In 2002, the District, having resolved water supply and wastewater disposal limitations through other means, modified the use of the CWR treatment facilities to provide water for landscape irrigation and eliminated the groundwater injection project component.

Around the timeframe of the development of the CWR project, DSRSD was also studying a recycled water program in cooperation with the East Bay Municipal Utility District (EBMUD) and in 1995 formed a Joint Powers Authority (JPA) called DERWA (DSRSD-EBMUD Recycled Water Authority) to supply recycled water to the agencies respective service areas through the San Ramon Valley Recycled Water Program. DERWA began delivery of non-potable recycled water in 2005.

The District’s efforts to expand the use of recycled water has been a success. On average, 23% of the District’s total water demand is supplied by recycled water. In 2014, DERWA entered an agreement with the City of Pleasanton to produce recycled water for the City. In 2019, the District supplied on average 4.1 million gallons per day (mgd) of recycled water to DERWA and the City of Pleasanton. DERWA supplied a maximum of 10.3 mgd. The demand for recycled water now occasionally exceeds the available supply on peak demand days.

There have been considerable changes since the formation of DERWA and the initial delivery of recycled water. When the District signed the DERWA Water Supply Agreement the projected average dry weather wastewater flow to the Regional Wastewater Treatment Plant from the District’s service area and the City of Pleasanton was projected to be 16.6 mgd) at build-out. The agreement apportioned 9.6 mgd of that projected flow to DSRSD and 7.0 mgd to EBMUD.

Water conservation has reduced the growth of wastewater produced; the current dry weather wastewater flow to the WWTP is approximately 10.5 mgd and is now projected to be only 12.3 mgd at build-out. Of that wastewater flow, the City of Pleasanton has first rights to use the wastewater emanating from their service area which is approximately 50-60% of the flow. As the City of Pleasanton develops their recycled water program there is less flow available to DERWA to serve DSRSD and EBMUD customers. Pleasanton's 2019 recycled water maximum day demand was 1.95 mgd and is projected to ultimately be 4.2 mgd.

The DERWA Water Supply Agreement acknowledged that supplemental recycled water supplies may be needed prior to buildout and that short-term shortfalls may be met with the addition of potable water to the recycled water system. In 2019, DERWA approved a temporary supplemental supply agreement with Central Contra Costa Sanitary District (Central San) to divert approximately one million gallons of wastewater from the Central San collection system to the District's collection system. DERWA is also working on a pilot project to develop wells in the Tri-Valley fringe groundwater basin to extract ground water to supplement the recycled water supplies. Even with these efforts, the recycled water peak day demands are expected to exceed the available recycled water supply. On March 25, 2019, the DERWA Board adopted a resolution requesting that the member agencies implement a moratorium on new connections, except for those EBMUD Phase 2 connections that were already in progress, and that member agencies also implement other demand management practices to curtail use of recycled water.

In addition to the demand for non-potable recycled water, new demands arising from potable reuse may be materializing, putting more demand on the wastewater resource than originally envisioned. With growing scarcity and risks to potable water supplies, potable reuse is now championed as an important component of a resilient water portfolio. The State has developed regulations for implementing potable reuse and will have regulations for direct potable reuse by 2023. In 2015, the District's Long-Term Alternative Water Supply Study, a high-level review of options to increase potable water supply reliability in response to the drought, included potable reuse as a potential supply source. Zone 7's 2016 update to its Water Supply Evaluation also include potable reuse as a potential source of supply.

In 2018, the District partnered with other agencies in the Tri-Valley to complete the Tri-Valley Potable Reuse Technical Feasibility Study. Potable reuse was shown to be a feasible water supply source. The study recommended further studies to determine how a potable reuse supply could be integrated with the current and potential future water supplies as well as groundwater and surface water storage in the valley. In December of 2019, the District entered into a task order to the Tri-Valley Intergovernmental Reciprocal Services Agreement with the other water agencies in the valley to fund these additional studies and to fund an outreach effort to educate the citizens of the valley on water supply issues.

DISCUSSION

Staff recommends the recycled water policy be revised considering the reduced availability of wastewater and the decreasing reliability of potable water supplies. Staff has drafted a revised policy for the Board's consideration. The revised policy will provide guidance over the next few years as the District amends the DERWA water supply and operations agreements and renegotiates its water supply contract with Zone 7 which expires in 2024. Following are highlights of the key elements of the draft revised policy.

The revised policy retains and restates many of the general terms of the current policy in support of water recycling. To reflect the important contribution of water recycling in developing a more resilient potable water supply, the revised policy now includes the objective to maximize the use of the recycled water for irrigation or potable reuse to increase the reliability and resilience of the Tri-Valley potable water supply.

The current policy includes several sections outlining the priorities of service for potential new retail and wholesale customers within and outside the district. The policy has been revised to reflect the limited available supply. The District will continue to meet the current contractual obligations to provide recycled water to existing wholesale and retail customers, but the addition of new customers is restricted until there is sufficient wastewater supply to meet District's recycled demands for a minimum 10-year time horizon. This restriction is to assure that the addition of new customers does not decrease the level of service of existing customers and to comply with the DERWA requested moratorium.

Given the importance of recycled water in meeting the District's potable water supply reliability goals, the revised policy limits the use of any new recycled water supplies to areas within the District boundary. It also requires that the new customers be served by the existing District recycled water system infrastructure. There is already more potential future recycled water demand than available supply that can be served with the existing infrastructure. It is most economical in the long-term to maximize customers using the existing infrastructure rather than adding more infrastructure that will require additional operational and maintenance costs. For the same reasons, the policy also prioritizes use of the wastewater for the District-wide recycled water program over on-site recycled water systems.

The revised policy prioritizes public entity irrigation over new commercial or residential irrigation customers, as public entities typically irrigate larger areas (parks and schools), therefore the District can serve more water with lower overhead costs. The policy also provides clarity on the provision of recycled water directly to residential customers through a hauled water program. The revised policy incorporates the Board's December 2016 decision to provide hauled recycled water to residential customers only when the District has imposed mandatory conservation on potable water use.

The revised policy further acknowledges that conservation of recycled water may be required. Recycled water has long been promoted as a drought-proof supply. However, the supply is valuable and should be used prudently. If there is a reduction in available supply either through reduced supply due to water conservation or the expansion of the City of Pleasanton's recycled water program the District may need to implement conservation measures. In addition, the pending State water conservation regulations will impose an outdoor water budget on the District, limiting the water outdoor water use regardless of whether it is recycled or potable water.

Lastly, the current policy allows for the addition of potable water supplies to the recycled water system "when recycled water deliveries may be halted." The current language may be construed to limit the addition of potable supplies only to situations when there are no recycled water deliveries, for example due to a treatment system outage. The revised policy broadens the language on the additional of potable water to "during operational emergencies or for non-recurring short-term contingencies." Although not explicitly stated, the policy by corollary does not include the addition of potable supplies to expand the recycled water customer base. It would not be prudent to rely upon potable water to expand the customer base as it stresses the potable water delivery system on peak potable use days and requires additional operational support, coordination, and management of both the systems, increasing operational complexity.

RECOMMENDATION

Staff recommends that the Board adopt the revised Water Recycling Policy and rescind Resolution No. 37-10.

POLICY

Dublin San Ramon Services District

Policy No.:	P300-10-3	Type of Policy:	Operations
Policy Title:	Water Recycling		
Policy Description:	Policy Regarding the Provision of Recycled Water Service both Within and Outside the District		
Approval Date:	Sept 7, 2010 <u>6/16/2020</u>	Last Review Date:	2010 <u>2020</u>

The purpose of this policy of the Board of Directors of Dublin San Ramon Services District is to support the use of recycled water, address the limitations of the recycled water supply, and reflects the emerging importance of potable reuse.

1. General

- a. Meet contractual obligations to provide recycled water to existing wholesale and retail customers.
- b. Maximize the use and availability of recycled water for potable reuse, landscape irrigation, and all other approved uses to increase the reliability and resiliency of the Tri-Valley's total water supply.
- c. Collaborate with regional and statewide partners and regional stakeholders to promote and expand the efficient and effective use of recycled water supplies.
- d. Support scientific and practical research related to potable and non-potable recycled water through staff and financial contributions, as appropriate.

2. Non-Potable Recycled Water Service

- ~~a. Restrict the connection of new irrigation customers to the recycled water system until such time there is sufficient wastewater supply to meet projected District recycled demands for a minimum 10-year time horizon.~~
- ~~b. Limit use of new recycled water supplies to areas within the District boundary that can readily be served by existing infrastructure.~~
- ~~c. Prioritize new recycled water supplies to serve public entity irrigation over new commercial or residential irrigation customers.~~
- ~~d. Prioritize the use of wastewater for the District-wide recycled water program over on-site generation and uses.~~
- ~~e. Provide recycled water for off-haul to residential customers only in times of mandatory potable water conservation.~~

~~3. Recycled Water Conservation~~

- ~~a. Encourage the prudent use of the Tri-Valley's limited recycled water supplies through education and outreach, and through a formal program of long-term demand management guidelines and regulations.~~
- ~~b. Require conservation of recycled water during periods of mandatory potable water conservation.~~

~~4. Potable Water Addition~~

- ~~a. Provide supplemental potable water supplies to the recycled water system for use within the District service area, when available, during operational emergencies or for non-recurring short-term contingencies.~~
- ~~b. Curtail potable water additions to the recycled water system during periods of mandatory potable water conservation.~~

~~It is the policy of the Board of Directors of Dublin San Ramon Services District:~~

~~I. GENERAL~~

- ~~A. To promote, produce, sell and deliver recycled water to retail and wholesale customers both within and outside the District in a manner consistent with laws, regulations and prudent public policy.~~

- ~~B. To work with the State of California, the Counties of Alameda and Contra Costa and individual local cities and agencies to develop ordinances and guidelines to encourage the use of recycled water.~~
- ~~C. To develop regulations and standards to ensure the safe and beneficial use of recycled water within the District.~~
- ~~D. To conduct ongoing public information and customer service programs to ensure that the public and individual customers have an appropriate understanding of recycled water including the benefits of using recycled water.~~
- ~~E. To support scientific and practical research related to recycled water.~~
- ~~F. To honor the terms of all contracts entered into regarding treatment, delivery and/or distribution of recycled water.~~

~~II. RECYCLED WATER SERVICE PRIORITIES~~

- ~~A. That the first service priority is the continued delivery of recycled water to retail customers within the District service area.~~
- ~~B. That the second service priority is the continued delivery of recycled water to wholesale customers outside the District service area pursuant to existing contracts.~~
- ~~C. That the third service priority is the delivery of recycled water to existing potable water customers (retrofits) within the District service area.~~
- ~~D. That the fourth service priority is the delivery of recycled water to new development within the District service area.~~
- ~~E. That the fifth service priority is the delivery of recycled water to retail or wholesale customers within the Zone 7, Alameda County Flood Control and Water Conservation District.~~
- ~~F. That the last service priority is the delivery of recycled water to any retail or wholesale customers that do not fit into any of the priorities above.~~
- ~~G. That, in the event the need arises to further prioritize deliveries within any of the above priorities, or in the event of conflicts between the above priorities, the service priority shall be determined at the sole discretion of the Board of Directors of the District using the guidelines herein.~~

~~III. RECYCLED WATER SERVICE TO RETAIL CUSTOMERS WITHIN THE DISTRICT~~

- ~~A. Recycled water service shall be provided to all existing and new customers when service is requested subject to:~~

- ~~1. When in conformance with all laws and regulations governing the use of recycled water;~~
- ~~2. On a case by case determination of the economic, environmental, and institutional feasibility of doing so; the feasibility will be determined at the sole discretion of the District using such tests as are appropriate unless there is a finding by the District that it is in the best interest of the District to proceed with a project on other grounds; and~~
- ~~3. Availability of recycled water.~~

~~**IV. WHOLESALE RECYCLED WATER SERVICE OUTSIDE DISTRICT**~~

- ~~A. To provide recycled water to wholesale customers outside the District when service is requested by the wholesale entity subject to:
 - ~~1. Case by case determination by District Board of Directors of the economic, environmental, and institutional feasibility of doing so; the economic feasibility will be determined at the sole discretion of the Board of Directors using such tests as are appropriate unless there is a finding by the Board of Directors that it is in the best interest of the District to proceed with a project on other grounds;~~
 - ~~2. Availability of adequate recycled water for District retail customers, DERWA and any signed agreements for firm wholesale delivery provided higher priority needs have been satisfied; and~~
 - ~~3. No adverse financial impact to customers within the District service area.~~~~
- ~~B. That agreements between the District and wholesale customers be long term due to the significant capital investment associated with the development of such projects.~~

~~**V. RETAIL RECYCLED WATER SERVICE OUTSIDE DISTRICT**~~

- ~~A. To provide recycled water to retail customers outside the District whenever requested by the potable water purveyor providing service subject to:
 - ~~1. Case by case determination by District Board of Directors of the economic, environmental, and institutional feasibility of doing so; the economic feasibility will be determined at the sole discretion of the Board of Directors using such tests as are appropriate unless there is a finding by the Board of Directors that it is in the best interest of the District to proceed with a project on other grounds; and~~
 - ~~2. Availability of adequate recycled water for retail customers within the District, DERWA, and any signed agreements for firm wholesale delivery.~~~~
- ~~B. That service to retail customers outside the District be on the same basis, and have the same priority, as retail customers inside the District, except for Backup Water Supplies.~~
