Recipe

FOR OVEN CLEANER

PREVENTION: Place a sheet of aluminum foil underneath heating element to catch spills.

TO CLEAN: Scrub with baking soda and water, using a copper scrubber and lots of elbow grease. OR... wet spill and sprinkle with salt while your oven is warm. Scrap away spill and wash with soap and water. OR... spray on a mixture of 1 quart warm water, 2 teaspoons borax, 2 teaspoons liquid soap, wait 20 minutes, then clean. **DO NOT** use baking soda on heating elements or wiring. **DO NOT** use abrasive materials on self-cleaning ovens.

Recipe

FOR MILDEW REMOVER

Use equal parts vinegar and salt.

7051 Dublin Blvd • Dublin, CA 94568 • Phone 925 828 0515 • www.drsd.com

Recipe

FOR STAIN REMOVER

1 part glycerin

1 part liquid dishwashing detergent

8 parts water

Test on unexposed area of fabric first.

Apply to stain as soon as possible and blot with a cloth.

Shake well before each use.

Store in a plastic squeeze bottle.

7051 Dublin Blvd • Dublin, CA 94568 • Phone 925 828 0515 • www.dsrzd.com

Recipe

BALLPOINT INK SPOT REMOVER

Lay the stained area on top of a clean dry white towel. Apply rubbing alcohol to the ink stain and blot with another clean white cloth, removing the stain as you blot. Rinse thoroughly.

Apply your normal liquid laundry detergent onto the ink stain and allow the garment to sit for 3-5 minutes.

Wash in the warmest water that the fabric can tolerate.

Before drying, double check to make sure the stain was removed. If not, repeat the previous steps until it is.
